- Top-of-the-line gas pressure regulator and blower
- Stainless steel tank cover
- Large fryer baskets (2)
- Heavy Duty Basket Hanger & Guard
- One year limited parts & labor warranty
- 3 year limited fryer tank warranty

APPLICATION

A commercial deep fryer with all-in-one comprehensive, and yet simple operation on cleaning and to maximize oil life by using our one-of-kind H2Oil Filtration System, perfect for high productions with wider oil tank. SAPIDUS UG (LNG or LPG gas) model fryers with the patented Metal Fiber Burner Technology. The metal fiber combustion surface method provides fast recovery of oil temperature at the lowest gas consumption to cook variety of food products and keeping its intended tastes.

STANDARD FEATURES

- UG1100 type is excellent for high volume cooking (2 baskets)
- 5 Pre-set timers and temperature memories on every PCB digital control (NEW)

GAS FRYER	UG 1100 (LNG)
BTU/H	42,000 BTU
BURNER STRUCTURE/ IGNITION SYSTEM	METAL FIBER BURNER/DIRECT IGNITION
W.C.	8 INCHES
VAT OIL CAPACITY	60 LBS.
WATER CAPACITY	6 GALLONS
DIMENSION (WxDxH)	18.47 X 31 X 47 (IN.)
POWER	120V / 1 PH / .375 AMP / 60 Hz
TEMP / WEIGHT	50 ~ 390 °F / 176 LBS.

ACCESSORIES (Sold Separately)

- Larger fryer basket
- Side tilted tray (for draining access oil)
- Stainless steel splash guard
- Connecting Strip for multiple fryers (side-by-side) for security
- Heavy Duty Basket Shake Front Plate
- Food Separator (in the oil tank; sliding)
